

ANDRIY CHERNENKO

Full-Stack Engineer (Frontend-focused)

Cherkasy, Ukraine | +380 63 364 7129 | andrey.chernenko008@gmail.com | linkedin.com/in/andriy-chernenko-732679280

PROFESSIONAL SUMMARY

Full-stack engineer with 2+ years of experience building and scaling production web applications, primarily with React, Next.js and Vue. Strong track record of leading front-end architecture and UI/UX redesigns end-to-end, integrating REST APIs, and improving application performance and SEO. Comfortable across the stack, including Node.js/backend services, PostgreSQL, and DevOps basics (Docker, Git). Looking to bring full-stack ownership and product thinking to a growing engineering team.

SKILLS

Frontend: React.js, Next.js, Vue.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Nest.js, Java, REST API design, GoLang

Data & Infra: PostgreSQL, Prisma, Docker, Git, CI/CD basics

Practices: Server-side rendering (SSR), performance optimization, SEO, agile/freelance delivery

WORK EXPERIENCE

Front-End Engineer

Mar 2025 – Nov 2025

T-Auto Logistics — Remote

- Owned the full front-end development cycle for a logistics platform, from architectural planning through implementation and release.
- Led a large-scale refactor of the application's front-end architecture, improving maintainability and reducing feature delivery time.
- Redesigned the UI/UX across core flows, improving usability and increasing user engagement.
- Built a custom auction system with AI-driven functionality from the ground up.
- Rebuilt the front-end from scratch with server-side rendering (SSR), improving page load performance and organic search visibility (SEO).

Full-Stack Developer

Mar 2024 – Feb 2025

Freelance — Remote

- Designed and delivered web systems for multiple client and commercial projects, ranging from internal tools to full-featured customer-facing applications.
- Owned architecture decisions end-to-end: server-side logic, REST API development, and front-end implementation.
- Delivered stable, scalable solutions across projects with a consistent focus on code quality, maintainability, and extensibility.
